

What they say about us:

- “ This learning material does more than just meet the ECDL syllabus - it puts a context and a reason for learning to the functionality ”
- “ Vital for learners to have context and relevance, I hear, I see, I do ...I can! ”
- “ This is the kind of ICT learning that inspires you to want to know more ”
- “ This is a curriculum focused training experience ”
- “ Tasks and topics are pitched perfectly at students for them to understand how to apply their skills ”
- “ The course has given me valuable aid in teaching and supporting classes and the delivery of the course contents has helped me structure skill-based lessons ”
- “ This course exceeds expectations. The students love it. They are motivated, they are learning loads of skills and they are turned on by it ”
- “ We are very happy that the trainers have a comprehensive and user friendly guide - and it is also in Arabic!! ”

Aston Swann Education Courseware Syllabus V5.0

email ecd@astonswann.co.uk
www.educatorsecdl.com www.astonswann.co.uk

Approved Courseware

Building on the global success of our previous ECDL / ICDL products, used in schools, colleges and test centres worldwide, Aston Swann presents its new syllabus V5.0 Education courseware - approved by the ECDL Foundation.

Territorial approval has also been awarded by

- BCS, the Chartered Institute for IT, for ITQ and IT User qualifications in the UK
- ICDL GCC Foundation in English and Arabic
- UNESCO Cairo, ICDL territories in English and Arabic
- The Caribbean territories
- Certain Asia Pacific countries

Training Material for Syllabus V5.0

Choice of Windows platform:

- Windows 7, Windows Vista and Windows XP
- Written for Microsoft Office

Aston Swann Education courseware consists of the 7 ECDL / ICDL modules and a choice of Windows platforms - allowing flexibility and easy transition from one platform to another .

Available formats

- Master CD-ROM for Network, Intranet or VLE integration
- Printable Books/Manuals from pdf format

Courseware Design

- Tutor led, self study or electronically managed learning environment
- Themed tasks - in manageable byte sized chunks - cover one or more syllabus items in a way that is meaningful to the candidate
- Learning in the live application, candidates produce real documents, presentations, spreadsheets and databases with interactive, relevant and engaging exercises; preparing them for their ECDL/ICDL tests.

Schools and Colleges

Aston Swann Education courseware is a unique computer skills training programme with a distinctive focus on schools and colleges. Creatively designed, interactive exercises, with classroom and homework assignments, provide learning material which supports the secondary curriculum while integrating with the ECDL syllabus - to ensure:

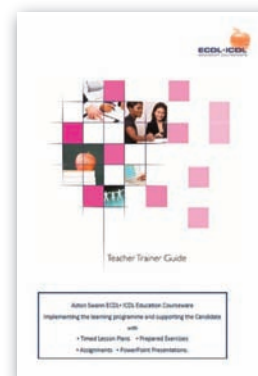

- ICT skills that have immediate application in the classroom
- Engaging examples that make learning within the curriculum more interesting for students
- competence to use ICT across all subject areas and phases
- vocational skills for the real world
- recognised international certification
- a gateway to higher education and a career
- enhanced professional development for teachers and trainee teachers

Teacher Trainer Guide

Our comprehensive Teacher Trainer Guide, exclusive to Aston Swann Education courseware, for those implementing the learning programme and supporting the ECDL / ICDL candidates - includes:

- Timed lesson plans which can be personalised to suit busy timetables
- PowerPoint presentations – and notes
- Additional classroom and homework exercises and assignments.

The Guide, in conjunction with the Courseware, also supports Teachers who are personally working towards the ECDL /ICDL qualification and a CPD programme designed to embed practical computing skills across the curriculum.
